INTRODUCTION

The information contained in this report, with the exception of Ontario residents' spending on Canadian fares when travelling to destinations outside Canada, was extracted from the micro data files of the Canadian Travel Survey (CTS) by Research Resolutions, on behalf of the Ontario Ministry of Tourism, Culture and Recreation. The information on Canadian fares was extracted from the International Travel Survey by Statistics Canada.

Co-sponsored by all the provinces and the federal government, the CTS is conducted by Statistics Canada annually (starting in 1997) as a supplement to the Labour Force Survey. The CTS telephone interview captures the incidence and detail of travel by Canadians. In 1999, an average of 14,530 Canadian households -- including 4,117 Ontario households -- were surveyed every month throughout the year. The average response rate for Canadian and Ontario respondents was around 90%.

The data contained in this report differ from those reported or supplied in electronic format by Statistics Canada in the following ways:

1. All overnight trips, regardless of the distance travelled, and same day trips with a minimum one-way distance from a respondent's home of 40 kms are included in this report.

2. Overnight trips with an Ontario destination, but no nights spent in the province, are treated in this report as same day trips to Ontario.

3. Spending by Ontarians on Canadian fares while travelling to destinations outside Canada has been removed from the CTS file and replaced with information from the ITS.

4. The data contained in this report include visits in Ontario by Canadians while on trips to any destination, not just Canadian destinations.

Excluded from this report's data base are the following types of travel: travel as a member of an operating crew of a bus, plane, truck, etc.; commuting to and from work or school; one way travel involving a change of residence; travel in an ambulance to a hospital or clinic; trips that did not originate in Canada; and trips longer than one year. The trip must also meet a one-way distance requirement, as follows:

	Place Of Residence	
Length Of Stay	Ontario	Other Provinces
Same Day	40 km one way away from home	80 km one way away from home
Overnight	No minimum distance	No minimum distance

HIGHLIGHTS

Domestic Travel in Ontario – 1999

- In 1999, 26.8% of Ontario's population of 15 years and over took any overnight non-business trip to any destination in the world. Ontario had the fourth highest incidence of travel across Canada after Saskatchewan (38.1%), Alberta (31.4%) and Nova Scotia (30.6%).

- On a destination basis, 21.8% of Ontario's population (15 years and over) took an overnight non-business trip in the province, 7.3% to some other Canadian province, 8.7% to the USA and 4.3% to an international destination other than USA. Ontario had the highest incidence of taking an overnight non-business trip to the USA or to an overseas destination. B.C. had the second highest incidence of travel: 8.0% to the US and 3.4% to overseas countries.

- A total of 73.9 million person visits were made by same day and overnight travellers from across Canada to locations in Ontario, 40.8% of which were overnight visits.

- Ontario residents dominated the province's domestic travel market accounting for 97.9% of its same day visitors and 89.1% of its overnight visitors.

- Of the total visits with an Ontario destination (73.2 million), 28.5 million were primarily motivated by pleasure and slightly fewer than those were motivated by an interest in visiting friends or relatives. About one-in-ten visits were taken for a business reason and one-in-seven visits were initiated for personal reasons.

- Overall, a typical visitor to an Ontario destination stayed in the province 1.11 nights, travelled 190 kms one-way away from home and did so in groups that had an average size of 1.62 persons. This typical domestic visitor was aged 37.2 years, had a household income of $68,300 and was most likely to have obtained a post-secondary or higher diploma or degree.

- Most of the person nights spent in Ontario by domestic visitors (66.1%) were spent in non-commercial accommodation (homes of friends and relatives or private cottages). Pleasure trips generated 65.1% of the person nights spent in Ontario's commercial accommodation industry, followed by business visitors (21.6%).

- The most popular activities that domestic visitors with an Ontario destination engaged in during their trip were: visiting friends or relatives (52.3%), participation in sports or the outdoors (23.6%), shopping (23.5%) and sightseeing (13.4%). Of the outdoor activities the most popular were: walking or hiking (10.1%), swimming (9.2%), other water-based activities (5.7%) and fishing (3.9%).

- The travel activities of the Canadian residents generated, in 1999, a total of $9.44 billion in Ontario. Of this, $5.71 billion were generated by Canadians who visited Ontario as a destination, $0.26 billion by those who spent nights in Ontario en route to another destination and $3.48 billion by Ontarians who purchased transportation fares on Canadian carriers in order to travel to destinations outside the province.

- Of the total expenditures incurred in Ontario on trips with an Ontario destination, pleasure trips accounted for 41.4% of visitors' spending, business trips accounted for 24.9% (although they only accounted for 9.8% of the visits with an Ontario destination), trips to visit friends or relatives accounted for 23.1% and trips motivated by personal reasons accounted for 10.6%.

- Ontario East was the most frequented tourism region in Ontario, with 18.6% of provincial visitors. Metro Toronto was Ontario's second most frequently visited tourism region with 18.0% of all domestic provincial visitors taking either a same day or an overnight trip followed by Festival Country, Southwestern Ontario, Getaway Country and Lakelands. Ontario's northern regions received in total 8.6% of Ontario's domestic person visits.

- Metro Toronto received the largest share of visitors' spending in Ontario (29.3%) and 34.9% of the Ontario residents' spending in Ontario for trips taken to destinations outside the province. Metro was followed by Ontario East (17.5% of visitors' spending), Festival Country (16.2%) and Southwestern Ontario (8.7%).

Travel from Ontario to Other Canadian Provinces – 1999

- In 1999, a total of 5.8 million person trips were taken by Ontarians to Canadian destinations other than Ontario, of which 29.2%, were same day trips and 70.8% were overnight trips.

- Quebec received 70.9% of Ontario's overnight trips to Canadian provinces other than Ontario and 90.5% of its same day trips. Almost all of the same day trips (93.0%) and over half of the overnight trips (53.1%) from Ontario to Quebec originated in Eastern Ontario (Region 6).

- Ontarians spent $1.3 billion in other Canadian provinces in 1999. This level of spending resulted in a travel deficit with the other Canadian provinces of $279 million in 1999 (Ontario's receipts of $1,045 million minus Ontario's payments of $1,324 million).

Comparison of Key Findings for 1996, 1998 and 1999

- The incidence of taking any overnight non-business trip by Ontario residents to any destination in the world increased in 1999 over 1996 by 1.5%, but decreased over 1998 by 4.1%. However, the number of Ontarians who took an overnight non-business trip in Ontario fell between 1996 and 1999 by 0.1%, but increased by 5.3% over 1998.

- Total domestic person visits in Ontario decreased in 1999 over 1996 by 0.4%, but increased by 1.3% over 1998. The decline over 1996 was attributed solely to Ontario residents' reduced travel within the province. Overnight visits increased in 1999 by 4.5% over 1996 and by 1.7% over 1998.

- Trips taken for business reasons declined the most in 1999 (10.4% over 1996 and 2.6% over 1998), while in the overnight market, pleasure, visiting friends or relatives, business and personal visits increased over 1996. Overnight business and personal visits declined over 1998.

- Total expenditures assigned to Ontario, in current dollars, increased by 24.0%, from $7.6 billion in 1996 to $9.4 billion in 1999. However, after removing inflationary impacts, total expenditures assigned to Ontario in constant 1992 dollars increased by 14.9% from $6.5 billion in 1996 to $7.4 billion in 1999.

- Near North, Ontario East, Lakelands, North of Superior, and Sunset Country experienced increases in total visitation in 1999 over 1996, while James Bay Frontier, Algoma Country, Southwestern Ontario, Rainbow Country, and Metro Toronto experienced declines in total visitation. Festival Country and Getaway Country had more or less the same number of visitors in 1999 as they did in 1996.

- Sunset Country, Ontario East, Lakelands, Near North, and Metro Toronto experienced growth in the number of visitors, while all other regions experienced declines in the number of visitors in 1999 over 1998.

- With the exception of James Bay Frontier and Sunset Country, all of Ontario's travel regions experienced increases in the total spending assigned to them in 1999 over 1996, while, compared to 1998, James Bay Frontier, Near North and Rainbow Country experienced declines in 1999, when all other regions experienced increases in the total spending assigned to them.

- Total travel from Ontario to other Canadian provinces increased in 1999 over 1996 by 4.2%, but decreased by 2.5% over 1998. Same day travel increased by 2.8% over 1996 and by 14.5% over 1998. Overnight travel increased by 4.8% in 1999 over 1996, but decreased by 8.1% over 1998.

Total expenditures by Ontarians in other Canadian provinces, while on trips with a Canadian destination, increased by 16.5% between 1996 and 1999 (from $1,124 million in 1996 to $1,310 in 1999), but decreased by 1.4% over 1998 (from $1,328 million in 1998 to $1,310 in 1999). Spending in other Canadian provinces for trips to any destination increased by 15.0% in 1999 over 1996, but decreased by 1.6% over 1998.

POINTS SAILLANTS

Voyage des Canadiens en Ontario – 1999

- En 1999, 26,8 % de la population de l'Ontario, âgée de 15 ans et plus, a effectué un séjour de plus de 24 heures à des fins personnelles au pays ou à l'étranger. L'Ontario arrivait au quatrième rang des provinces canadiennes en ce qui concerne le nombre de voyages effectués par sa population après la Saskatchewan (38,1 %), l'Alberta (31,4 %) et la Nouvelle-Écosse (30,6 %).

- En fonction de la destination, 21,8 % de la population ontarienne (âgée de 15 ans et plus) a effectué un séjour de plus de 24 heures à des fins personnelles dans la province, 7,3 % dans une autre province canadienne, 8,7 % aux États-Unis et 4,3 % dans un autre pays que les États-Unis. Les Ontariens ont effectué le plus grand nombre de séjours de plus de 24 heures à des fins personnelles aux États-Unis ou dans un pays outre-mer. La Colombie-Britannique occupait le deuxième rang en matière d'incidence de voyages : 8,0 % de sa population a effectué un séjour aux États-Unis et 3,4 %, dans un pays outre-mer.

- Au total, 73,9 millions de visites-personnes ont été faites en Ontario par des Canadiens dont le séjour était de moins ou de plus de 24 heures. De ce nombre, 40,8 % correspondait à des séjours de plus de 24 heures.

- Les résidents de l'Ontario ont dominé le marché du tourisme intérieur de la province : 97,9 % y ont effectué un séjour de moins de 24 heures et 89,1 %, un séjour de plus de 24 heures.

- Du nombre total de visites d'une destination ontarienne (73,2 millions), 28,5 millions étaient principalement des voyages d'agrément, et un nombre légèrement inférieur de séjours avait pour but de visiter des parents ou des amis. Environ une visite sur dix était effectuée à des fins professionnelles et une visite sur sept était motivée par des raisons personnelles.

- En général, un visiteur type d'une destination ontarienne a séjourné 1,11 nuit dans la province, a parcouru 190 km pour se rendre à la destination et a voyagé en groupes qui comptaient en moyenne 1,62 personne. Ce visiteur type de l'Ontario était âgé de 37,2 ans, avait un revenu familial de 68 300 $ et était le plus souvent détenteur d'un diplôme d'études postsecondaires ou plus.

- La majorité des visiteurs canadiens (66,1 %) qui ont passé une nuit en Ontario ont été hébergés dans des établissements non commerciaux (résidences de parents ou d'amis ou chalets privés). Les voyages d'agrément correspondaient à 65,1 % des nuits-personnes passées dans des établissements d'hébergement commerciaux de l'Ontario, suivis par les voyages d'affaires (21,6 %).

- Les activités les plus populaires effectuées par les visiteurs canadiens au cours de leur séjour en Ontario étaient les suivantes : visite de parents ou d'amis (52,3 %), pratique d'activités sportives ou de plein air (23,6 %), magasinage (23,5 %) et visite touristique

(13,4 %). La marche ou la randonnée pédestre (10,1 %), la natation (9,2 %) et d'autres activités nautiques (5,7 %) et la pêche (3,9 %) figuraient parmi les activités extérieures les plus populaires.

- Les activités associées au voyage des résidents du Canada ont généré, en 1999, des retombées totales de 9,44 milliards de dollars en Ontario. De ce montant, 5,71 milliards de dollars ont été générés par des Canadiens dont la destination de voyage était l'Ontario, 0,26 milliard de dollars par des voyageurs qui ont passé la nuit en Ontario avant de poursuivre leur route vers une autre destination et 3,48 milliards de dollars par des Ontariens qui ont acheté des billets auprès des transporteurs canadiens en vue de rendre à une destination à l'extérieur de la province.

- Du montant total des dépenses encourues en Ontario par des visiteurs d'une destination ontarienne, 41,4 % était attribuable aux dépenses de voyage d'agrément, 24,9 %, aux dépenses de voyage d'affaires (même si les voyages d'affaires ne correspondaient qu'à 9,8 % des visites en territoire ontarien), 23,1 %, aux dépenses associées à la visite de parents ou d'amis et 10,6 %, aux dépenses de voyage effectué à des fins personnelles.

- La région de l'Est de l'Ontario a été la région touristique la plus fréquentée en Ontario; elle a accueilli 18,6 % des visiteurs de la province. La région du Grand Toronto a été la deuxième région touristique la plus fréquemment visitée en Ontario (18,0 % de tous les visiteurs de la province y ont effectué un séjour de moins ou de plus de 24 heures), suivie du pays des festivals, du Sud-Ouest de l'Ontario, du pays de l'évasion et du pays des lacs. Au total, les régions du nord de l'Ontario ont reçu 8,6 % des visites-personnes en Ontario en provenance des autres provinces canadiennes.

- Le Grand Toronto a reçu la plus grand part des dépenses des visiteurs en Ontario (29,3 %) et 34,9 % de l'argent dépensé en Ontario par des Ontariens en vue de voyages à l'extérieur de la province. Le Grand Toronto était suivi de l'Est de l'Ontario (17,5 % des dépenses des visiteurs), du pays des festivals (16,2 %) et du Sud-Ouest de l'Ontario (8,7 %).

Ontariens en voyage dans d'autres provinces canadiennes – 1999

- En 1999, un total de 5,8 millions de voyages-personnes a été effectué par des Ontariens vers d'autres destinations canadiennes que l'Ontario. De ce nombre, 29,2 % étaient des séjours de moins de 24 heures, 70,8 %, des séjours de plus de 24 heures.

- Le Québec était la destination de 70,9 % des Ontariens qui ont séjourné plus de 24 heures dans d'autres provinces canadiennes que l'Ontario et de 90,5 % des Ontariens dont le séjour était de moins de 24 heures. La majorité des Ontariens qui ont séjourné au Québec pendant moins de 24 heures (93,0 %) et plus de la moitié des Ontariens dont le séjour au Québec était de plus de 24 heures résidaient dans l'Est de l'Ontario (région 6).

- Les Ontariens ont dépensé 1,3 milliard de dollars dans les autres provinces canadiennes en 1999. En raison de ce montant de dépenses, l'Ontario présente un déficit en matière de dépenses touristiques de 279 millions de dollars avec les autres provinces canadiennes en 1999 (différence entre les recettes de 1 045 millions de dollars de l'Ontario et les dépenses de 1 324 millions de dollars effectuées par des Ontariens).

Comparaison des résultats clés de 1996, de 1998 et de 1999

- L'incidence des séjours de plus de 24 heures au pays ou à l'étranger et effectués par des résidents de l'Ontario à des fins personnelles a augmenté de 1,5 % en 1999 comparativement à 1996, mais a diminué de 4,1 % par rapport à 1998. Toutefois, entre 1996 et 1999, le nombre d'Ontariens qui ont séjourné en Ontario à des fins personnelles en 1999 a diminué de 0,1 % par rapport à 1996, mais a augmenté de 5,3 % par rapport à 1998.

- En 1999, le nombre total de visites-personnes de Canadiens en Ontario a diminué de 0,4 % comparativement à 1996, mais a augmenté de 1,3 % par rapport à 1998. La baisse par rapport à 1996 était principalement attribuable au fait que les Ontariens ont moins voyagé dans la province. En 1999, le nombre de séjours de plus de 24 heures a augmenté de 4,5 % et de 1,7 % par rapport à 1996 et à 1998, respectivement.

- Le nombre de voyages d'affaires a subi la plus forte baisse en 1999 (10,4 % et 2,6 % par rapport à 1996 et à 1998, respectivement), tandis que le nombre de voyages de plus de 24 heures (agrément, visite de parents ou d'amis, affaires et motif personnel) a augmenté par rapport à 1996. Le nombre de voyages d'affaires et de séjours à des fins personnelles a diminué par rapport à 1998.

- Le montant total des dépenses assignées à l'Ontario, en dollars courants, a augmenté de 24,0 %, passant de 7,6 milliards de dollars en 1996 à 9,4 milliards de dollars en 1999. Toutefois, en prenant en considération les effets de l'inflation, le montant total des dépenses, en dollars courants de 1992, a augmenté de 14,9 %, passant de 6,5 milliards de dollars en 1996 à 7,4 milliards de dollars en 1999.

- Le Nord proche, l'Est de l'Ontario, le pays de lacs, le Nord du lac Supérieur et le pays du soleil couchant ont connu une augmentation du nombre total de visites en 1999 par rapport à 1996, tandis que le pays de la baie James, l'Algoma, le Sud-Ouest de l'Ontario, le pays des arcs-en-ciel et le Grand Toronto ont connu une baisse du nombre total de visites. Le pays des festivals et le pays de l'évasion ont reçu plus ou moins le même nombre de visiteurs en 1999 qu'en 1996.

- Entre 1998 et 1999, le pays du soleil couchant, l'Est de l'Ontario, le pays des lacs, le Nord proche et le Grand Toronto ont vu le nombre des visiteurs augmenter, tandis que toutes les autres régions ont accusé des baisses à ce chapitre.

- À l'exception du pays de la baie James et du pays du soleil couchant, toutes les régions touristiques de l'Ontario ont vu le montant des dépenses qui leur sont assignées augmenter en 1999 par rapport à 1996. Le pays de la baie James, le Nord proche et le pays des arcs-en-ciel ont connu des baisses des dépenses en 1999, tandis que toutes les autres régions ont vu le montant total des dépenses qui leur est assigné augmenter.

- Le nombre total d'Ontariens qui ont voyagé dans les autres provinces canadiennes en 1999 a augmenté de 4,2 % par rapport à 1996, mais a diminué de 2,5 % par rapport à 1998. Le nombre de séjours de moins de 24 heures a augmenté de 2,8 % et de 14,5 % par rapport à 1996 et à 1998, respectivement. Le nombre de séjours de plus de 24 heures a augmenté de 4,8 % en 1999 par rapport à 1996, mais a diminué de 8,1 % par rapport à 1998.

- Le montant total des dépenses effectuées par des Ontariens dans d'autres provinces canadiennes au cours d'un voyage a augmenté de 16,5 % entre 1996 et 1999 (passant de 1 124 millions de dollars en 1996 à 1 310 millions de dollars en 1999), mais a diminué de 1,4 % par rapport à 1998 (passant de 1 328 millions de dollars en 1998 à 1 310 millions de dollars en 1999). Les dépenses effectuées dans d'autres provinces canadiennes pour des voyages au pays ou à l'étranger ont augmenté de 15,0 % en 1999 par rapport à 1996, mais ont diminué de 1,6 % comparativement à 1998.

AN OVERVIEW OF DOMESTIC TRAVEL TO AND FROM ONTARIO - 1999

A. Domestic Travel in Ontario

A.1. Incidence of Travel among Ontario's Population

On average, and in any given month during 1999, 30.5% of Ontario's residents (15 years and over) took a trip of 40 kms or more to any destination in the world. The month with the highest incidence of travel among Ontario's population was August (41.1%) and the month with the lowest incidence was January (23.7%).

The monthly incidence of overnight travel to any destination among Ontario's population (15 years and over) averaged at 19.6%, with August recording the highest incidence at 30.0% and November the lowest at 13.3%.

The highest incidence of travel to any destination for an overnight pleasure trip was also recorded in August - 18.1% of Ontario's population of 15 years and over took an overnight pleasure trip. The highest incidence of travel to any destination for an overnight VFR (visit friends and/or relatives) trip occurred in December (12.5%). May was the month that recorded the highest incidence of overnight travel for business purposes (3.4%).

On an annual basis, 26.8% of Ontario's population of 15 years and over took any overnight non-business trip during 1999 to any destination in the world. Ontario had the fourth highest incidence of travel across Canada after Saskatchewan (38.1%), Alberta (31.4%) and Nova Scotia (30.6%).

On a destination basis, 21.8% of Ontario's population (15 years and over) took an overnight non-business trip in the province, 7.3% to some other Canadian province, 8.7% to the USA and 4.3% to an international destination other than USA.

Among the Canadian provinces, Ontario had the highest incidence, of taking an overnight non-business trip to the USA or to an overseas destination. B.C. had the second highest incidence of travel: 8.0% to the US and 3.4% to overseas.

A.2. Volumes & Trip Characteristics

Destination In 1999, 73.9 million person visits were made by same day and overnight travellers from across Canada to locations in Ontario. Of these, 73.2 million visits had Ontario as their destination, while the remaining 0.7 million visits were made by travellers en route to destinations in the US, overseas or other Canadian provinces.

Origin of Visitors Most of the 73.9 million visits were generated by provincial residents, making Ontario a key source of tourism volume and value for itself. Ontarians accounted for 69.7 million of the total person visits (or 94.3%) to locations within Ontario, of which, 69.2 million had Ontario as their destination.

Quebec was the second largest source of visits to Ontario (2.5 million, or 3.4% of the total visits), followed by Western Canada (excluding Manitoba) (0.7 million visits), Manitoba (0.6 million visits) and Atlantic Canada (0.4 million visits).

Seasonality Domestic tourism in Ontario was more heavily concentrated in the summer (31.7%), followed by spring (26.6%), fall (21.3%) and winter (20.4%).

Compared to other provinces, Manitoba residents had a much lower incidence of travel to Ontario in the first and fourth quarter and a much higher incidence of travel in the third quarter. Residents of provinces in Atlantic Canada had the highest incidence of travel to Ontario during the second quarter.

Chart 1: Total Visits in Ontario by Season and Origin

Origin	QI	QII	QIII	QIV
Ontario	20.6%	26.8%	31.4%	21.2%
Quebec	18.6%	24.3%	35.2%	21.9%
Manitoba	8.2%	21.6%	52.4%	17.8%
Western Canada	21.5%	24.4%	31.8%	22.2%
Atlantic Canada	15.7%	27.6%	32.2%	24.6%

Pleasure trips were mainly responsible for the concentration of travel in the summer months (41.4% of all pleasure visits occurred in the summer), while business and to some extent personal trips contributed to a more even distribution of travel throughout the year.

Chart 2: Total Visits in Ontario by Season and Main Purpose

Main Purpose	QI	QII	QIII	QIV
VFR	23.4%	26.3%	27.0%	23.3%
Pleasure	16.2%	24.7%	41.4%	17.7%
Business	23.9%	29.9%	20.3%	25.9%
Personal	21.5%	30.9%	25.2%	22.5%

During July, visitors with an Ontario destination travelled the longest distances to reach their destinations (the average distanced travelled was 218 kms one way away from home), while during March they travelled the shortest distances (166 kms).

A similar travel pattern was also observed among Ontario residents visiting a provincial destination. In July, Ontarians travelled the longest distances (average of 171 kms one way) to reach their Ontario destination, while in November they travelled the shortest distances (134 kms one way).

Compared to person visits, person nights were even more heavily concentrated in the summer months. The first quarter accounted for 14.8% of Ontario's person nights, the second quarter for 22.7%, the third quarter for 46.2% (as opposed to 31.7% of the person visits) and the fourth quarter for 16.4%.

This higher concentration of nights in the summer months is the result of longer stays (average length of stay of overnight visitors in 3rd quarter=3.36; overall average length of stay of overnight visitors=2.77) and larger party sizes during these months (party size of overnight visitors in 3rd quarter=1.79; overall party size of overnight visitors=1.63).

Prepaid Package Only 1.4% of the visitors with an Ontario destination, had purchased a prepaid package prior to leaving home. Ontario residents accounted for 88.3% of those with a prepaid package and Quebec residents for 5.5%.

Visitors on a pleasure trip to an Ontario destination accounted for 77.7% of those with a pre-paid package, while business travellers accounted for 13.5% of the pre-paid packages.

"Meals" was the most common item included in the package (85.1%), followed by accommodation (66.9%), recreation & entertainment (56.6%), public transport (54.8%) and car rental (4.6%).

Those who had accommodation included in the prepaid package stayed in the province, on average, 3.13 nights, as compared to 2.34 nights for all visitors with commercial accommodation.

The average cost of a prepaid package was $344 per household, with 8.1% of the packages costing $1,000 or more. Residents of provinces west of Manitoba spent the most on their packages to an Ontario destination ($1,964), followed by residents of Atlantic Canada ($802) and of Quebec ($281).

Visitors on a trip to an Ontario destination for personal reasons spent the least on their pre-paid package ($158 per household), while business travellers spent the most ($752 per household). Pleasure visitors spent an average of $264 per household on pre-paid packages to an Ontario destination.

Main Purpose of Trip Of the total visits with an Ontario destination, 28.5 million were primarily motivated by pleasure (38.9%) and slightly fewer than those were motivated by an interest in visiting friends or relatives (37.9%). Nearly one-in-seven visits were initiated for personal reasons (13.3%), and nearly one-in-ten visits were taken for a business reason (9.8%).

Pleasure accounted for 39.8% of Ontario residents' visits to a provincial destination, followed by VFR (37.8%), personal reasons (13.6%) and business (8.8%).

For Quebec residents, VFR travel accounted for 40.8% of their visits with an Ontario destination, followed by business (28.4%) and pleasure (21.9%). Manitoba residents had the highest incidence of pleasure visits with an Ontario destination (48.5%), and the lowest incidence of VFR travel (28.4%), while residents from other Canadian provinces had the highest incidence of both VFR and business travel to Ontario destinations (western Canada: VFR 48.2%, business 35.3%; Atlantic Canada: VFR 40.1%, business 31.4%).

Length of Stay in Ontario Of all the person visits in Ontario, 59.2% began and ended on the same day, and 40.8% spent at least one night in the province.

Ontario residents accounted for 89.1% of all overnight visits and 97.9% of all same day visits in the province.

Although pleasure and VFR visitors accounted for most of the same day trips in Ontario (pleasure: 37.0%; VFR: 33.8%), visitors who travelled for personal reasons had the highest incidence of same day visits (81.8%), followed by business (64.3%), pleasure (56.1%) and VFR (53.0%).

Average Length of Stay, Party Size and Distance Travelled Overall, a typical visitor that had an Ontario destination stayed in the province 1.11 nights, travelled 190 km one-way from home and did so in groups that had an average size of 1.62 persons.

On the other hand, a typical overnight visitor with an Ontario destination stayed in the province 2.75 nights, travelled an average of 314 km one-way from home and did so in groups that had an average household size of 1.63 persons.

Ontario residents had the lowest average stay in Ontario (1 night for all visits and 2.55 nights for overnight visits), while residents of Canadian provinces west of Manitoba had the highest (7.55 nights for both overall and overnight visits).

Party Composition Of the travelling households with an Ontario destination, 84.9% were comprised of adults only, with Atlantic Canada and the provinces west of Manitoba having the highest incidence of adults-only travelling households (93.6% for Atlantic Canada and 93.5% for western Canada).

The majority of the adults-only groups (60.2%) was comprised of one person, followed by parties with two adults (22.8%).

Almost 11 million children (or 15.0% of total person visits with an Ontario destination) under the age of 15 accompanied the 6.8 million households that took a trip to an Ontario destination with their families. Most of the households that travelled with children were comprised of two adults (56.1%), followed by parties with one adult (36.3%).

Business trips had the highest incidence of travel in adults-only groups (98.5%), while pleasure trips had the highest incidence of travel in adults-with-children groups (20.2%).

Accommodation Most of the person nights spent in Ontario by domestic visitors were spent in non-commercial accommodation (66.1%). The homes of friends or relatives hosted 38.3 million of these nights, or 36.1% of the total person nights, and private cottages hosted 17.0 million nights, or 20.3% of the total person nights spent in Ontario.

With respect to the commercial sector, 9.8 million person nights (or 11.7%) were spent in hotels, 8.3 million (or 9.9%) in campgrounds, 3.1 million (or 3.7%) in motels, 1.4 million (or 1.7%) in commercial cottages and 1.0 million in resorts (or 1.2%). Hunting and fishing lodges generated 287,000 person nights and bed and breakfast establishments generated 344,000 person nights. Overall, the commercial accommodation sector accounted for 29.1% of all person nights in Ontario and the commercial roofed accommodation for 19.1%.

Pleasure trips generated 44.6% of all the person nights in Ontario and 65.1% of the person nights spent in commercial accommodation. VFR trips generated 40.7% of all person nights in Ontario, but only 7.6% of the person nights spent in commercial accommodation. Finally, business trips generated 8.1% of Ontario's person nights and 21.6% of the person nights in commercial accommodation.

Commercial Cottage	5.12	1.82	2.00	1.82

Chart 3 shows the average length of stay and party size of domestic visitors by type of accommodation used in Ontario. Commercial cottages, resorts, hunting/fishing lodges and campgrounds experienced, in 1999, the longest stays, while campgrounds, private cottages and resorts were visited by households with an average party size larger than that of any other type of accommodation. Resorts, campgrounds, and commercial cottages were also visited by an appreciably larger proportion of households with children (32.0%, 26.1% and 16.9%, respectively, as opposed to 14.7% for all types of accommodation).

Travellers who stayed in commercial accommodation during their trip travelled longer distances than those who did not. The average distance travelled by those who stayed in commercial accommodation was 363 km, by those who stayed in roofed commercial accommodation was 430 km and by those who stayed in non-commercial accommodation was 278 km.

Mode of Transport The automobile was by far the favourite transportation mode of domestic visitors in Ontario. Of the visits that had Ontario as their destination, 93.8% relied on private auto. Commercial buses were used by 2.4% of Ontario's visitors and an almost equal number (2.3%) used aeroplanes to reach their destination. Rail transport was used by comparatively few visitors (accounting for 0.7% of the total visits with an Ontario destination).

Business travellers with an Ontario destination relied, in relative terms, less on automobiles (82.3%) and more on aeroplanes (14.2%) to reach their destinations. Residents of provinces west of Manitoba used mainly aeroplanes (88.5%) to reach their Ontario destinations and so did residents of Atlantic Canada (63.8%), while the overwhelming majority of the Ontario residents (95.5%) used automobiles to reach their provincial destinations.

Activities During the Trip The most popular activities that visitors with an Ontario destination engaged in during their trip were: VFR (52.3%), participation in sports or the outdoors (23.6%), shopping (23.5%) and sightseeing (13.4%).

The most popular outdoor activities were: walking or hiking (10.1% of the total person visits with an Ontario destination), swimming (9.2%), other water-based activities (5.7%) and fishing (3.9%). Visits to casinos were relatively few, accounting for 2.2% of the total visits to Ontario as a destination.

Although the above activities were also ranked as the most popular among the overnight visitors with an Ontario destination, these travellers had a higher degree of participation in almost every activity (VFR, 65.0%; participation in sports or the outdoors, 39.0%; shopping, 25.2%; and sightseeing, 20.4%).

Visitors on an overnight pleasure trip to an Ontario destination had more of an outdoor orientation than any other travel group. They favoured the following activities: participation in sports/outdoor activities (63.2%), VFR (39.8%), sightseeing (34.0%) and shopping (27.0%). The most popular sports or outdoor activities for this group of travellers were: swimming (35.8%), walking or hiking (32.5%), other water-based activities (24.1%), fishing (16.2%), golfing (6.9%) and bird or wildlife viewing (6.9%). It is interesting to note that overnight business visitors had the highest incidence of casino visitation (5.1%) than any other group.

Demographics On average, a visitor with an Ontario destination was 37.2 years old, belonged to a household with an average income of $68,300 and, for those aged 15 years and over, was most likely to have had achieved a post-secondary, or higher, education level. On the other hand, Canada's population had, in 1998, an average age of 36.3 years (36.1 years in Ontario).

Of the adults with an Ontario destination, 51.9% were males, 59.5% were employed and 22.0% were not in the labour force. Of those not in the labour force, 35.3% were 65 years of age or older and 19.9% were between 55 and 64 years of age.

A.3. Expenditures

The travel activities of Canadian residents generated, in 1999, a total of $9.44 billion in Ontario. Of this, $5.71 billion were generated by Canadians who visited Ontario as a destination, $0.26 billion by Canadians who spent nights in Ontario en route to another destination and $3.48 billion by Ontarians who purchased transportation fares on Canadian carriers in order to travel to destinations outside the province.

Of the total expenditures incurred in Ontario, public transportation, including commercial air carriers, rail, boat and bus, accounted for 40.1%, followed by restaurants and bars (13.3%), accommodation establishments (11.9%), garages and gasoline stations (12.4%), retail stores (10.2%), recreation and entertainment establishments (5.2%), grocery and liquor stores (3.8%), car rental companies (2.0%) and local transit, including limousines and taxis (0.7%).

The prominence of public transportation was due to the purchase, by Ontarians, of tickets for trips that took them outside Ontario on domestic carriers ($3.48 billion). Removing these fares from the total reduces the share of public transport expenditures from 40.1% to 19.4%, while the share of restaurants and bars increases from 13.3% to 17.8%.

Ontario residents accounted for 83.5% of the total expenditures in Ontario of those who had a provincial destination and 69.7% of the total expenditures of those who spent nights in Ontario en route to another destination.

Quebec accounted for 7.7% of the expenditures incurred in Ontario by those who visited the province as a destination, Manitoba for 1.5%, provinces west of Manitoba for 4.9% and the Atlantic Provinces for 2.4%.

Travellers on same day visits in Ontario spent a total of $1.77 billion, or 30.9% of the expenditures incurred in Ontario by those who visited the province as a destination.

The third quarter received the largest share of the expenditures incurred by those who visited Ontario as a destination (first quarter, 17.9%; second quarter, 25.2%; third quarter, 33.9%; and fourth quarter 23.0%). The third quarter also received the largest share of Ontario residents' spending in Ontario while travelling to destinations outside the province (first quarter, 23.7%; second quarter, 17.0%; third quarter, 36.1%; and fourth quarter, 23.1%).

Of the total expenditures incurred in Ontario on trips with an Ontario destination ($5.71 billion), pleasure trips accounted for 41.4%, business trips for 24.9%, VFR trips for 23.1% and personal trips for 10.6%. The share of expenditures accounted by business travellers was two and an half times higher than their share of person visits with an Ontario destination (9.8%), reflecting these visitors higher average spending.

Of the total spending on accommodation ($1.13 billion), business trips with an Ontario destination accounted for 43.2%, pleasure trips for 41.7%, VFR trips for 5.4%, personal trips for 5.5% and trips with an overnight stop in Ontario en route to another destination for 4.1%.

Chart 4, shows the three major behavioural market segments and how each spent its travel budget. Pleasure travellers spent most of their budget on accommodation, restaurants and retail shopping, VFR travellers spent most of their budget on vehicle operation, restaurants, and retail shopping, while business travellers spent most of their budget on accommodation and restaurants.

CHART 4: Expenditure Shares by Main Purpose of Trip
Visits with an Ontario Destination

	Pleasure	VFR	Business
Public Transport	2.2%	3.9%	12.9%
Vehicle Operation	17.1%	28.8%	13.0%
Vehicle Rental	1.0%	2.0%	5.1%
Local Transport	0.3%	0.8%	2.6%
Accommodation	19.9%	4.6%	34.3%
Grocery & Liquor Stores	7.8%	7.9%	2.0%
Restaurants	20.3%	24.3%	22.0%
Amusement and Recreation	14.1%	6.7%	2.9%
Retail	17.4%	21.1%	5.3%
Clothing	10.6%	14.6%	2.3%
Other	6.8%	6.5%	2.9%
Total ($billions)	$2.36	$1.32	$1.42

As the chart demonstrates, there were significant differences in the way that each of the three market segments spent their travel budgets. For example, business travellers spent more on public transport, more on local transport and vehicle rental, much more on accommodation and less on grocery stores, recreation and retail. Surprisingly, VFR travellers spent, proportionately, more on restaurants than the pleasure or business travellers did.

Overall, domestic travellers spent in Ontario an average of $131.14 per household visit, or $80.82 per person visit.

Same day visitors spent an average of $65.5 per household, or $40.4 per person visit, while overnight visitors spent an average of $226.7 per household visit, or $139.2 per overnight person visit.

Among the travellers with an Ontario destination, the most lucrative market was the business traveller, irrespective of the traveller's origin. These travellers spent on average $213.2 per household visit or $197.4 per person visit. Business visitors from Western Canada exhibited the highest average spending per household, or per person, while business visitors from Ontario exhibited the lowest.

The overnight business traveller with an Ontario destination spent, on average, $628.6 per household visit, or $564.9 per person visit. In contrast, pleasure travellers with an Ontario destination spent $151.7 per household visit ($82.9 per person visit) and overnight pleasure visitors spent $370.4 per household visit, or $192.3 per person visit.

Overnight visitors from provinces west of Manitoba exhibited the highest average spending per household, as well as per person, visit irrespective of the main purpose of their trip.

Ontario residents spent the least per person visit, or per household visit, a reflection in part of their high incidence of same day travel, their low incidence of commercial accommodation usage and their low average length of stay during overnight trips.

B. Regional Travel in Ontario*

B.1. Trip Characteristics

Historically, Ontario's southern regions have been the beneficiary of considerably more tourism volume than its northern regions, largely because so much of the domestic travel is generated by the province's own residents who, in turn, dwell mostly in the southern tourism areas (92% of Ontario's population live in its six southern travel regions, while only 8% live in its six northern travel regions).

Consistent with Ontario's population distribution, its six northern travel areas were recipients of 8.6% of the provincial person visits and 8.5% of the person visits with an Ontario destination.

Ontario East, which includes Canada's capital city and the St. Lawrence parks, was Ontario's most frequently visited tourism area, with 18.6% of the provincial visitors (13.7 million, of which 13.5 million visited the region as a destination).

Metro Toronto was Ontario's second most frequently visited tourism area, with 18.0% of all provincial visitors taking either a same day or an overnight trip to this highly urbanised area (13.3 million visits, of which 13.0 million visited Metro as a destination).

Festival Country, including major urban centres such as Kitchener/Waterloo and Hamilton, and attractions such as Niagara Falls, attracted 17.0% of Ontario's visitors (12.5 million visits, of which nearly 12.5 million visited the region as a destination).

Southwestern Ontario, with the major urban centres of London and Windsor and attractions such as the Windsor casino and the Point Pelee national park, attracted 9.13 million visitors, of which 9.07 million visited the region as a destination.

Gateway Country, including the Haliburton cottage and outdoor recreation area, and Lakelands -- traditionally known as "cottage country"-- were also popular among domestic visitors attracting 13.5% and 13.1%, respectively of the provincial visitors.

Of the northern travel regions, Rainbow Country was the most popular, attracting 2.7% of the provincial visitors (2.0 million). Near North and received close to a million and a half domestic visits in 1999 (1.3 million), whereas James Bay Frontier received 1.0 million visitors, 0.8 million travellers visited North of Superior and the same number visited Sunset Country. Algoma Country attracted 0.7 million visits, or 0.9% of the provincial total, in 1999.

*Distance travelled to a travel region as a destination

The distribution of visits across Ontario's travel regions changes considerably when one examines the overnight market. Lakelands received the highest share of overnight visitors (5.3 million, or 17.7% of the total), followed by Ontario East (5.3 million or 17.5% of the total), Toronto (4.7 million), Getaway Country (4.5 million), Festival Country (3.9 million), and Southwestern Ontario (3.0 million). Northern Ontario (Regions 7-12) received in total 4.1 million overnight visits, with the largest share going to Rainbow Country (1.5 million).

On average, domestic visitors visited 1.09 Ontario travel regions while in the province. Metro Toronto and Festival Country generated the most spin-off benefits to other provincial regions. In 1999, visitors with a destination in Metro Toronto spent 11.7 million person nights in that region and an additional 0.6 million person nights in other provincial regions, while visitors destined to Festival Country spent 8.0 million person nights and an additional 0.3 million person nights in other parts of the province.

Ontarians accounted for 49.6% of the additional nights generated by Metro, Quebec accounted for 5.0%, Manitoba for 3.6%, Western Canada for 28.4% and residents of Atlantic Canada for 13.5%. These numbers indicate that visitors from Ontario and western Canada with a destination in Metro Toronto moved around the province more than Metro visitors from other Canadian provinces.

In Festival Country, Ontarians accounted for 57.1% of the additional nights generated by that region and visitors from Quebec accounted for 21.9% of the additional nights generated in the province.

Visitors to Ontario's northern regions stayed longer, and travelled longer distances in order to get there, than those who visited the southern regions. Metro Toronto's low averages for length of stay and party size reflect the high volume of same day visitors to the region, as well as its high volume of business visitors (19.6% for Metro vs. 9.9% for Ontario as a whole), who tend to travel alone.

Among the visitors with an Ontario destination, Sunset Country and Metro Toronto had the highest incidence of adults-only travelling households (86.9% and 86.5%, respectively), while Near North, Algoma Country and Lakelands had the highest incidence of adults-with-children travelling households (21.0%, 18.7% and 16.7%, respectively).

As Chart 7 indicates, most of the overnight visitors who took a trip to a destination in Lakelands, Near North, James Bay Frontier, North of Superior, and Sunset Country, they did so for pleasure, while Southwestern Ontario and Festival Country were dominated by the VFR visitors. VFR visitors also played a very important role in Metro Toronto and Ontario East.

Compared to other travel regions, Metro Toronto attracted a disproportionately high number of business travellers (19.6% of its total visitors and 26.2% of its overnight visitors with a destination in Metro), while the proportion of travellers who visited Metro Toronto for pleasure was the lowest in the province (see Chart 7).

Metro Toronto accounted for 25.7% of the person nights spent in the province in commercial roofed accommodation, followed by Ontario East (18.6%), Lakelands (12.9%), and Festival Country (12.9%). Northern Ontario as a whole, accounted for 13.8% of the person nights spent in commercial roofed accommodation.

However, when non-roofed commercial accommodation is under consideration, Lakelands moves to the top of the list accounting for 20.1% of the provincial person nights spent in camping or trailer parks, while Getaway Country and Ontario East each accounted for 17.5%.

As expected, Lakelands and Getaway Country accounted for the majority of the provincial person nights spent in a private cottage (55.8%), with Lakelands having the larger share of the two (33.7%).

As Chart 8 indicates, seven out of the twelve travel regions drew significantly upon their own residents as their source of overnight domestic travel.

Metro Toronto (partly because of its small geographic size), Lakelands, Near North and Rainbow Country drew mostly upon other Ontario regions and, in the case of Sunset Country, upon other provinces.

Among the visitors who had an Ontario travel region as their destination, the most popular activity was visiting friends and relatives irrespective of the travel region under consideration, with the exception North of Superior where the sports/outdoors was the most popular activity.

The most popular activity for overnight pleasure visitors in all regions (except Festival Country and Metro Toronto) was participation in sports or outdoor activities (ranging from 44.4% in region 1, to 82.5% in region 10). The most popular activity for overnight pleasure visitors to Festival Country was sightseeing (46.9%) and in Metro Toronto the most popular activity was visiting friends and relatives (47.5%).

B.2. Expenditures in Ontario's Travel Regions

Chart 9 shows the total expenditures assigned to each of Ontario's travel regions. These expenditures are separated into those incurred by the visitors to a region and those incurred by its own residents while trying to reach destinations outside the region (mainly transportation fares paid in one's own place of residence).

The largest share of expenditures went to Metro Toronto (29.3%), followed by Ontario East (17.5%) and Festival Country (16.2%). The northern regions accounted for 8.2% of the total expenditures assigned to Ontario.

Travellers who visited North of Superior had the highest average spending per household per visit, as well as per person per visit, followed by Metro Toronto. Overall, Ontario's northern regions received visitors that had a higher average spending per household visit (or person visit) than those visiting the southern regions (see Chart 10).

Metro Toronto had the highest average spending per person visit among the travellers who took an overnight trip for pleasure, while Sunset Country had the highest average spending among travellers who took overnight trips for the purpose of business, and Algoma Country had the highest average spending among travellers who took overnight trips to visit friends and relatives.

As was the case at the provincial level, business travellers in all regions spent more per night than any other traveller. The disparities in the average spending per overnight person visit between business and pleasure travellers was the greatest in regions 8, 9, and 12.

12: Sunset Country	$146.94	$94.13	$98.62	$484.69	$84.57

The average spending per visit of overnight VFR visitors was almost half that of overnight pleasure visitors, with the exception of Getaway Country, Rainbow Country, Algoma Country, James Bay Frontier, North of Superior, and Sunset Country. This is due to the longer average length of stay in these regions compared with other regions.

C. Ontarians' Travel to Other Canadian Provinces

In 1999, a total of 5.8 million person trips were taken by Ontarians to Canadian destinations other than Ontario, of which 1.7 million, or 29.2%, were same day trips and 4.1 million or 70.8% were overnight trips.

Quebec received 70.9% of Ontario's overnight trips to Canadian provinces other than Ontario and 90.5% of its same day trips. Almost all of the same day trips (93.0%) and over half of the overnight trips (53.1%) from Ontario to Quebec originated in Eastern Ontario (region 6).

Overall, Region 6 was the origin of 53.4% of all trips from Ontario to other Canada (followed by Metro Toronto -16.7%) and 40.7% of all overnight trips (followed again by Toronto – 22.7%).

By far, most of the trips taken by Ontarians to Canadian destinations other than Ontario were motivated by pleasure and VFR reasons (74.6%). These motivating factors differed somewhat from those observed on trips with an Ontario destination. Proportionately, Ontarians took more pleasure and VFR trips and less business trips in their own province than in other Canadian provinces.

Seven out of every ten overnight pleasure trips (70.9%) that Ontarians took to destinations in other Canadian provinces were destined to Quebec and nearly one-in-ten was destined to B.C. (9.6%).

This level of spending resulted in a travel deficit with the other Canadian provinces of $279 million in 1999 (Ontario's receipts of $1,045 million minus Ontario's payments of $1,324 million).

COMPARISON OF KEY FINDINGS FOR 1999, 1998 & 1996

A. Incidence of Travel

During the first seven months of 1999 (January-July), the monthly incidence of taking any trip to any destination by Ontario residents was higher than that of 1996 and 1998, during the remaining five months (August-December) the monthly incidence of travel by Ontarians was also higher in 1999.

On an annual basis, the incidence of taking any overnight non-business trip by Ontario residents to any destination in the world increased in 1999 over 1996 by 1.5%, but decreased over 1998 by 4.1%, while that of Canada as a whole increased by 3.6% over 1996, but decreased by 5.4% over 1998.

The number of Ontarians who took an overnight non-business trip in Ontario fell between 1996 and 1999 by 0.1%, but increased by 5.3% over 1998. Meanwhile the number of Canadians who took an overnight non-business trip in Canada increased by 5.3% in 1999 over 1996, and by 5.4% over 1998.

B. Trip Volumes & Characteristics

As Chart 14 demonstrates, total visits to Ontario fell in 1999 by 0.4% over 1996, but increased by 1.3% over 1998. The decline over 1996 was attributed solely to Ontario residents' reduced travel within the province. Visits from Quebec, Manitoba and other Canadian provinces increased in 1999 over 1996 and 1998, with Manitoba showing the largest increases.

Among the visits with an Ontario destination, overnight pleasure increased in 1999 by 5.9% over 1996 (from 11.6 million to 12.3 million), and by 1.6% over 1998 (from 12.1 million to 12.3 million). Overnight VFR increased by 3.1% over 1996 (from 12.6 million to 12.9 million), and by 4.4% over 1998 (from 12.4 million to 12.9 million). Overnight business increased by 4.4% over 1996 (from 2.4 million to 2.5 million), but decreased over 1998 by 4.9% (from 2.6 million to 2.5 million).

Overall, the average length of stay in Ontario among all origin groups and all types of trips increased in 1999 by 2.7% over 1996, but decreased by 1.7% over 1998. The increase is a reflection of the fact that the proportion of overnight visitors was higher in 1999 than in 1996 (40.8% in 1999 versus 38.9% of total visits in 1996). The increase in the average length of stay in Ontario was witnessed across all origin groups in 1996 and 1998, with the exception of Ontario residents, where it fell by 2.0% over 1998.

The average length of stay in Ontario among overnight visitors decreased by 1.8% in 1999 over 1996, which is a reflection of the fact that Ontario resident overnight visits decreased by 2.3% in 1999 while all other origin groups increased. A similar situation arises when comparing 1999 to 1998 overnight average length of stay data – the overall overnight average length of stay decreased by 2.5% and only Ontario resident's average length of stay decreased, while other visitor origins increased.

The average party size of travelling households in Ontario declined in 1999 by 1.8% over 1996 and by 1.2% over 1998. The average party size for households on an overnight trip also decreased in 1999 by 2.4% over 1996 and by 0.6% over 1998. The drop in the average party size of overnight travelling households was mainly due to the increase in the share of households that had a size of one or two members.

Among visitors with an Ontario destination, the share of "adults-only" travelling households increased in 1999 (83.4% in 1996 vs. 84.8% in 1998 vs. 85.0% in 1999) and as a consequence, the share of families with children under the age of 15 years declined (16.6% in 1996 vs. 15.2% in 1998 vs. 15.0% in 1999).

The 1999 domestic visitor to Ontario was somewhat more active than the 1996 visitor. Visitors with an Ontario destination participated, on average, in 1.6 activities in 1999 and in 1.5 activities in 1996. The average number of activities remained the same for 1999 and 1998.

The proportion of visitors with an Ontario destination who participated in outdoor activities increased by 1.7%, from 23.2% in 1996 to 23.6% in 1999, but decreased by 5.6% from 25.0% in 1998.

Chart 19 presents the top activities that visitors with an Ontario destination engaged in during their trip, as well as the top outdoor activities. When comparing 1999 levels of participation to 1996 the activities that experienced a decline in their shares were attending sports events, attending festivals or fairs, fishing, and visiting friends or relatives. The activity with the largest increase was golfing – a 33.3% increase in 1999 over 1996. When comparing 1999 levels of participation to 1998, outdoor activities experienced a decrease of 4.6%. The decrease can be attributed to the fact that in absolute numbers participation in outdoor activities decreased from 18.1 million in 1998 to 17.3 million in 1999. Participation in nightlife activities experienced the highest growth in 1999 over 1998, an increase of 13.9%.

APPENDIX II: Glossary

ACCOMMODATION TYPE refers to the type(s) of accommodation used on the trip.

"Other accommodation" is a separate category in the CTS questionnaire, and includes dormitories, hostels, sleeping berths on trains and boats, etc. In many of the tabulations contained in this report, accommodation type "not stated" records have been combined with *"other"*.

ACTIVITIES ON TRIP. For each trip, respondents are asked to indicate whether they participated in any of a number of activities (aided measure). If they indicate that they *participated in sports or outdoor activities* they are asked to specify in which sports or outdoor activities they participated in (starting in 1996, an aided measure).

The activity could have occurred at any location on the trip (destination or location of overnight stop). Activity data are not captured on a location-specific basis.

DESTINATION OF TRIP. The location -- city/town and province (Canada) or city/state (USA) or country (other countries) -- volunteered by the respondent as the *destination* of the trip. If multiple destinations are named (e.g., a touring trip), interviewers are instructed to record the location that is *furthest* from the respondent's home.

EXPENDITURES ON TRIP. All dollars spent by all household members who went on the trip and paid for by individuals, government or private sector business. For reasons of national accounting practices, *public transport* expenditures spent on trips with a destination outside of Canada do not come from the CTS. Figures from the International Travel Study (ITS) were used to estimate public transport spending for trips that originate in Canada but were destined outside the country.

The following items of expenditures are excluded:

- food and beverage purchased prior to the trip to be used while on the trip;
- items purchased to be resold or used in a business;
- vehicles, such as cars, boats and caravans;
- capital investment, such as real estate, work of arts, rare articles and financial stocks;
- cash given to friends or relatives during a trip which does not represent payment for goods and services received, as well as donations to institutions.

EXPENDITURES IN ONTARIO. Expenditures on the trip are assigned by Statistics Canada to provinces of origin, destination, and location of overnight stops according to pre-set rules. All dollars assigned to Ontario on the basis of these rules were re-assigned to regions, as either dollars associated with visits to destinations outside the province with no stop in Ontario, or with visits destined to regions outside the province but with an overnight stop in Ontario, or with visits that were destined in Ontario.

EXPENDITURES IN ONTARIO BY TRIP CHARACTERISTICS. Ontario expenditures reported for trips with specific characteristics such as accommodation type, activity, and mode of transport are the *total dollars* assigned to Ontario by Statistics Canada for trips with the specified characteristic. They do not represent expenditures on the service or activity. For example, an expenditure figure associated with trips that included visiting a festival refers to *total* spending on these trips. It does not refer to spending *on* festivals.

HOUSEHOLD TRIP. A trip involving one or more persons from the same household leaving and returning together. If four persons from the same household take a trip, it counts as one household-trip.

MODE OF TRANSPORT. Mode of transport refers to the one used to travel the *greatest distance* on the trip. Only one mode of transport per trip is recorded.

PERSON NIGHT. A night spent away from home by a person taking a trip. If two persons take a trip involving three nights away from home, that counts for six person nights.

PERSON TRIP. A trip taken by one person. If two persons from the same household go on a trip, it counts for two person trips. If the same person takes two trips, it also counts for two person trips.

PURPOSE OF TRIP (MAIN). The main purpose categories include *visiting friends/relatives, pleasure, personal, business, convention.* In this report, *business convention* has been combined with *business* and *pleasure* has been combined with *non-business convention*.

QUALIFYING TRIP. A *qualifying trip* is defined as travel from the usual place of residence to a location any distance away if an overnight trip and at least 40 km (one-way) if a same-day trip for any purpose other than as a member of an operating crew of a bus, plane, truck, etc; commuting to work or school; moving to a new residence; travel in an ambulance to a hospital or clinic; trips that did not originate in Canada and trips that last longer than one year. The distance minimum of 40 km applies only to same-day trips that originate in Ontario. In all other provinces, the minimum distance for a same-day trip is 80 km.

REPORTING PERIOD. A one-month reporting period is used by the CTS since the second quarter of 1992. All fieldwork takes place approximately three weeks after the *end* of the reporting period. For example, during the third week in July respondents would be asked to report on trips that ended in preceding June.

RESPONDENT. A randomly selected individual in the sampled household (from the Statistics Canada Labour Force Survey sampling frame) who is at least 15 years of age. Specifically excluded from the LFS coverage are residents of Yukon and Northwest Territories, persons living on Indian Reserves, full-time members of the Canadian Armed Forces and persons living in institutions (inmates of penal institutions and patients in hospitals or nursing homes who have resided in the institution for more than six months).

VISIT. Place of overnight stay or for same day trips, the location of the trip's destination. If the respondent travelled twice to the same location during the same trip, only one visit is recorded at that location. In this report there are three types of visits at the sub-provincial level: visits that were destined to region x; visits that were destined to Ontario region y, but took an overnight excursion to region x, and visits that were destined outside

Ontario, but had an overnight stop in region x. A small number of respondents indicated that they took overnight trips to region x as destination, but they spent no nights in region x. These trips have been treated in this report as same day trips to region x.
